**Application form for the interlaboratory comparison of the determination of free crystalline silica, iron and manganese in welding dust  
 1st round – July 2012**

<i>Name of participant</i>	
<i>Name of accreditation institution and accreditation number</i>	
<i>telephone / fax number</i>	
<i>Data to invoice (name, address, VAT registration number)</i>	
<i>e-mail</i>	
<i>Predicted analysts (name and surname):</i>	
<i>Method of free crystalline silica determination **</i>	
<i>Method of determination of iron**</i>	
<i>Method of determination of manganese **</i>	
<i>Sample delivery address</i>	
<i>Report delivery address</i>	

\*\* Please give details of the methods and used equipment.

For laboratories which participate in proficiency testing organized by Instituto Nacional de Seguridad e Higiene en el Trabajo in Viscaya, participation in these interlaboratory comparisons is free of charge.

Completed application form should be sent us until July 15, 2012. Sample of dust will be sent to participants before 27 July.

The deadline for sending results is 30 September 2012.

1. Reports of interlaboratory comparisons will be prepared and sent to participants within 3 months from the date of finishing the comparisons.
2. The participant has the right to make a complaint in writing within 30 days after receiving the report of interlaboratory comparisons.
3. Sending the completed application form shall be considered as acceptance conditions for the implementation of interlaboratory comparisons defined in "Rules for participation in interlaboratory comparisons of the determination of free crystalline silica, iron and manganese in welding dust – 1<sup>st</sup> round - July 2012" and in this form.
